**CORRESPONDENCE**

It must be distinctly understood that we do not hold ourselves responsible for opinions expressed by correspondents.

**BASEBALL.**

To the Editor of the Times.  
Permit me through the columns of your paper to say a few words as regards the baseball match at Colleton, as the Advocate has told you their side of the question. In the first place when we went to town on the first of July, the town team had their umpires on the ground and we had nothing to say to it. Now, they come down to Colleton and bring theirs with them. Why is that? In the second place, he says when Mr. Way gave his first decision we kicked, and why not? It was in the case of a baseman standing in the way of a runner, and Mr. Way called that out. In the next place a man was put out on third base. This man was touched by the base man, who dropped the ball. Mr. Way called that out, and if he would look in rule 9, he would find what it says. The next was the settler. A fly ball was caught by a fielder, and then thrown to a base. Mr. Way said that was not right. He said it had to go to the pitcher before it could be put to a base. We will leave this with the readers of your paper to say who is right or wrong. We asked Mr. Way for his proof, and he said he would show it. We gave him the rules and he could not. Now, Mr. Advocate says every spectator said the decisions were just. This is not so, for everybody knows better—even to the Prince Albert players. Again he says there was one minute given for to play; that is not so. Mr. Advocate says again that the Colleton team were three runs ahead. He did not tell you that we had only played six innings and the town seven, or at even innings that we were ten runs ahead. He says again that there was much comment about the uncivil way in which their team was treated. Now then, we would ask any player if such is the case. Again he says that considerable money had been put up. Now, the only money that we know of was put up with the captain of your club by one of your players, which I hear he was man enough to take. He says we parted holding grudges against each other. This is also an untruth.

THOMAS MCFADDEN,

**LATEST NEWS BY WIRE.**  
A train bearing 400 Japanese soldiers, who landed at Hiroshima on their return from the war, while en route to Kobe, ran off the rails, where the line is constructed along the sea wall. Plunging over the wall, the train was thrown into the sea. Only a few of those on board were saved.

LATEST.

Additional news has been received of the railroad disaster. The train consisted of twenty-three cars and two engines, one in front and one in the rear. A gale prevailed at the time, and immense waves washed over the railway track. When the train reached the most exposed part on the morning of the accident it was very dark. A succession of heavy breakers struck the train and cut it in two. The first engine with eleven cars plunged into the sea.

Advices to the Novorossiysk from Valdivostok say that Japan is assiduously raising her army and navy to a war footing. Two cruisers, bought in Peru, have already arrived and crews will shortly be sent to England to bring out three ironclads, each of 12,000 tons, which have been ordered there. A strong warlike temper prevails in Japan.

According to a Vanity Fair correspondent Lady Aberdeen creates discontent in Canadian society by her unseemly interference with households where she is a guest. It is said that she takes the liberty of asking the servants how they are treated and advises housemaids not to wear caps if they are badges of servitude. She shakes hands all round with men and maid servants.

The London Times has published a dispatch from Havana which says: "Accounts of the fight on the road between Manzanillo and Bayamo (in which Gen. Sautoles was killed,) which have been published hitherto, were under censorship and are largely imaginary. No official account has been received from Captain General De Campos. The government admits that three of the officers and seventy men were killed. General impression here is that Captain General De Campos met with a distinct reverse. All the mules and horses were killed by his order so that he lost his baggage train. De Campos himself arrived at Bayamo on foot. The dead and wounded were left on the field. It is stated in official circles that De Campos went to Bayamo against the advice of the general commander at Manzanillo."

Andrew Boyd, of the defunct firm of Boyd, Gillies & Co., wholesale stationers, of Montreal, will not be brought back to Canada from England as stated in our last issue. It is safe to say Boyd will never again set foot in this country. It will be remembered that during the last days of the late session of parliament, Boyd's customs frauds when head of the firm of Boyd, Ryrie & Campbell, were warmly discussed in the connection that he had been allowed to escape the just deserts of a forger and swindler through the apathy of the comptroller of customs and minister of justice, so the Liberals claimed. That would have been sufficient to scare him out of the country, but it now transpires that shortly after the recent fire in the Boyd, Gillies & Co.'s warehouse, Boyd confessed to the insurance people and Crown Prosecutor Quinn that he was in the hands of a desperate gang of fire bugs. He gave the information which led to the arrest of Haynes and Jenkins on a charge of incendiarism and which implicates several well known firms in the city. For doing so he received a promise that he would not be prosecuted and immediately left the country on the steamship Miraposa, never to return. A third man named Clarke has been under lock and key for a week as a material witness. Sensational arrests are expected shortly.

Ladies who have deferred completing their summer wardrobes will be particularly pleased with this number, for the styles were never more dainty and appropriate. A special article is devoted to pressing for stout ladies, and another to bathing and swimming, with illustrations of the latest fashion in swimming costumes. Mrs. Rogers A. Pryor's article on the etiquette of letter writing bears the stamp of authority and will be helpful to every one who reads it; and the part on Art needlework in the employment series will direct the attention of many women as a means of livelihood. The housekeeper will find new recipes on seasonable cookery, and much that will help to make housework easier in things the housewife should know. There is also an excellent article on the newest books and others on floral work for August and the relations of mother and son, new designs are illustrated and described in knitting, tugging, lace making, etc. Subscription price of the Delinquent \$1.00 per year, 15c. per single copy. ### "THE TRIUMPH OF LOVE IS HAPPY FRUITFUL MARRIAGE"

Every Man Who Would Know the Grand Truths; the Plain Facts; the New Discoveries of Medical Science as Applied to Married Life; Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "COMPLETE MANHOOD and How to Attain It."

"Here at last is information from a high medical source that must 'work wonders' with this generation of men. The book fully describes a method by which to attain full vigor and manly power."

A method by which to end all unnatural drains on the system. To cure nervousness, lack of self-control, dependency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is "purely medical and scientific," useless to curiosity seekers invaluable to "men only who need it."

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug every body and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIC MEDICAL COMPANY, Buffalo, N.Y., and ask for their little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

## The Wild Flowers of Canada

This Dominion will soon be covered with wild flowers as with a carpet. It is interesting to hear that splendid prizes are to be given to those who know the Wild Flowers of Canada by name, form and color. European and American judges of floral nature say Canadians should be so carried away with the beauty of their own native bloom as to ensure an acquaintance with the Wild Flowers of Canada by every man, woman, boy and girl in the Dominion.

In this connection the Montreal "Star" is coming in for much praise for a splendid work it is publishing, entitled "The Wild Flowers of Canada," in portfolio form, sixteen flowers in each portfolio, three hundred plates in all, natural colors and natural size, the whole forming an invaluable treasure for the library. For a limited time these valuable portfolios may be obtained from the Montreal "Star" or local newsdealers at fifteen cents each. Amazing cheap.

The Manitoba Free Press in speaking of the Uxbridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright pianos is thrown into the shade. The Uxbridge Piano has a continuous book rack which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organ-manufactured by the Uxbridge company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.
